

# CALLIOPE INTERNATIONAL CONFERENCE

SPEAKING AS THE 'OTHER'

Coloniality, Subalternity, and Embodied Political Articulations  
(late 18th – early 20th centuries)

10-12 May 2021

Live in Helsinki and online

*Speaking as the 'Other'* is organised by the ERC-funded project *CALLIOPE: Vocal Articulations of Parliamentary Identity and Empire* at the University of Helsinki. This multidisciplinary conference seeks to examine performative, embodied and acoustic histories of articulating political representation and colonial 'otherness'. To that end, we intend to extend the focus beyond established Anglophone analyses of the metropole and colony, and indeed, beyond the disciplinary pre-eminence of Anglophone postcolonial studies.

For further details, including the full text of the **Call for Papers** and the link to the abstract submission form, please have a look at the conference website: <https://www.helsinki.fi/en/conferences/calliope-international-conference>. The **deadline** for the receipt of abstracts is **21 November 2020**.
